Discussions

Nemo is working on his drawing skills in school. He's trying to make a Fish of a certain size, but his penmanship skills are pretty bad (the whole no fingers thing). He decides that he could write a program that will generate his picture instead! The only symbols you will need are dashes (-), both types of slashes (/ and \), the letter O for the eye, the vertical bar symbol (|), and the less than symbol (<). The output should be rectangular, meaning that there are spaces at the end of most lines - this means that every line has the same number of symbols! Please help Nemo.

Input Format

A single number x

Constraints

x is an odd integer $5 \leq x \leq 31$

Output Format

The picture of the fish following the pattern shown below.

Sample Input 0

5

Sample Output 0

```
-  ---
|\  |-O\
||-|--<
|/  |--/
-  ---
```

Sample Input 1

7

Sample Output 1

```
-  ----
|\  |----\
|- \ |----O\
|-|-|----<
|-/  |----/
-  ----
```

```
|/  |---/  
-  ----
```

Sample Input 2

9

Sample Output 2

```
-  ----  
|\  |---\  
|-\  
|---\ |-----0\  
|---| |-----<  
|---/ |-----/  
|-/  |-----/  
|/   |-----/  
-  ----
```
